

# RESTRICTIONS

## on carry-on baggage

Obey the rules and have fun bringing home memories of your travels!

International flights

Restrictions on **liquids** in carry-on baggage

**Two ways** to smoothly carry home your special souvenirs and other items!

### 1 In checked baggage

All liquids of **over 100ml**

should be placed in your **checked baggage** when checking in at the airline counter.

These are not allowed to be brought into the cabin in carry-on baggage.

Huh?

These are liquids, too!

Most items that contain fluid are treated as liquids.

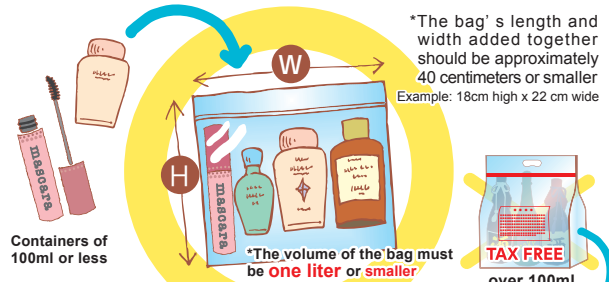

Examples: Jimami tofu, jelly, pre-packaged foods, miso, vinegar, mozuku seaweed, sea grapes, rafute, canned foods, wasabi paste, konnyaku, toothpaste, gel, lip gloss, mascara, lotion, hair wax, some cosmetics, etc.

### 2 In carry-on baggage

Put liquids in containers with **capacities not exceeding 100ml**

Place these containers into a **clear, zip-top plastic bag** (one liter or smaller)

\*One bag per person; place the bag in screening tray

\*The bag's length and width added together should be approximately 40 centimeters or smaller  
Example: 18cm high x 22 cm wide

Containers of 100ml or less

\*The volume of the bag must be **one liter or smaller**

**TAX FREE** over 100ml

\*You cannot bring liquids that are over 100ml into the cabin as carry-on baggage, **even if they are in a tax-free shopping bag**. Please put them in your **checked baggage**. In some cases, you may be asked to present them to customs.

(Japanese / English)

## Prohibited items for air transport

Your item might be **Dangerous Goods**

Be careful!  
Some coolants and insect repellents are classified as **Dangerous Goods**.

There are **Dangerous Goods** forbidden to transport.

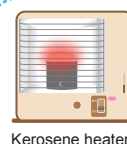

- Toxic substances (insect repellents), items that may be toxic or explosive
- Spray can (excluding cosmetics and pharmaceuticals)

Any person who carries Dangerous Goods can be liable for a fine of up to 500,000 yen.  
If you have any Dangerous Goods, please report to your check-in agent.
